WORK EXPERIENCE

Front End Developer

Reliance Industries Limited

08/2019 – Present

Navi Mumbai

Achievements/Tasks

- Developed code to translate UX design wire frames into pixel perfect web applications
- Used Angular framework for front end development
- Assisted teammates in designing web applications and gained skills in aligning designs with client requirements
- Secured that components and overall application are robust and easy to maintain.
- Ensured scalability of front end elements by optimizing them for loading speed and performance
- Coordinated with the rest of the team working on different layers of the infrastructure to meet team goals and business objectives

PERSONAL PROJECTS

A weather application that interacts with the Map Box and Weather Stack APIs (02/2020 – Present)

- Used Weather Stack APIs to get weather information from coordinates(latitude and longitude)
- Used Map Box to convert that coordinates to specific location(like Mumbai)
- Created Node Server with Express to serve up HTML and JSON
- Extensive use of NodeJS libraries like Handlebars and Partialas
- Good integration of ES6 features like Arrow and Default functions

24x7 -Foodies--Food-Ordering-Project-in-HTML (01/2020 – 02/2020)

- An online food ordering website that displays the menu of available food items
- Allows the user to place an order after choosing the items from the menu
- Can select a monthly or yearly plan
- Extensive use of HTML ,CSS and JavaScript

EDUCATION

B-tech in Computer Science and Engineering

National Institute of Technology

05/2015 – 06/2019

Agartala

Completed coursework:

- Data Structures and Programming Methodologies
- Object Oriented Programming
- Software Engineering
- Design & Analysis of Algorithm
- Database Management Systems
